WRIGHT INTERESTS FRENCH AERIAL CAPITAL

PARIS, Mag, 29 -Wilbur Wright, the seronaut, one of the Wright brothers of Dayton, O., arrived in this city today from America. The European represen-tatives of the Wrights, M. Hart O'Berg of Philadelphia, says the purpose of Mr. Wright's visit here is to demonstrate in Europe the capabilities of their machine. The preliminary arrangements for the demonstrations are complete, a suitable inclosure two miles square having been secured in western France. Several weeks probably will be required to get the machine in order. The important features of the invention have now been protected by European patents.

If certain tests are fulfilled at the company will be formed for the purpose of exploiting the machine in Europe. The French Government, it is stated, has offered to buy the exclusive European rights for three years, provided the machine, carrying the weight of two men, files thirty miles, returning to the point of departure.
